

Dear Representative,

Please do your part in promoting a diverse and competitive media by stopping the FCC rule change on June 2. I urge you to uphold democracy in the United States by not allowing monopolies to form, and especially not in the media. It is a very scary thought to think that all of our news could easily be shaded one way or the other if it was all handled by the same, or a few, companies.

It is the FCC's job to make sure that media companies serve the public interest. Please hold the FCC to its mandate and oppose the rule change.

Sincerely,

Melissa L. Castillo
